

PUBLIC NOTICE

BOIL WATER ADVISORY **FOR PORTIONS OF THE RM OF DUFFERIN AND RM OF ROLAND PUBLIC** **WATER SYSTEMS**

Issued by the Medical Officer of Health, Manitoba Health and
the Office of Drinking Water, Manitoba Conservation and Climate

January 19, 2023

A distribution system failure (break) occurring on January 19, 2023 has led to the loss of water pressure in portions of the RM of Dufferin and RM of Roland water distribution systems. Areas affected by this advisory are as follows:

RM of Dufferin

- Road 36 North, south on Hwy 338 to the RM of Thompson and RM of Dufferin boundary
- All water users nine miles east of Hwy 338 along Road 30

RM of Roland

- Water users on the end of Road 30 coming from the RM of Dufferin up to PR 245

Distribution depressurization can compromise the safety of the water supply; therefore, a boil water advisory has been issued to ensure public health protection.

RECOMMENDATIONS

Until further notice, all water used for consumption should be brought to a rolling boil for at least one minute before it is used for:

- Drinking and ice making
- Preparing beverages, such as infant formula
- Preparing food, including washing fruits and vegetables
- Brushing teeth

It is **not** necessary to boil tap water used for other household purposes, such as laundry or washing dishes. Adults and older children that are able to avoid swallowing the water can wash, bathe, or shower. Young children should be sponge bathed. If boiling is not practical, an alternate and safe supply of water should be used for consumptive purposes; i.e. bottled water. [Boil Water Advisory Fact Sheet #1 - Boil Water Advisory For Manitoba Water System Users](#) contains additional information on water use and can be found on the website below.

All commercial, public and permitted facilities (ex: restaurants, health care facilities, day cares, personal care homes and other private facilities that provide food and water services) must follow water use recommendations from the [Boil Water Advisory Fact Sheet #3 – Boil Water Advisory For Commercial/Public Facilities](#). A copy of this Fact Sheet is available on the website below.

To avoid burn injuries from hot water, caution should be taken. Please keep young children away from boiling water. Place kettles and pots away from counter and stove edges.

Health

Please share this information with other people who use the tap water, especially those who may not have received this notice directly (ex: renters, tenants, staff, or clients). This notice can also be posted in common areas where people tend to gather.

DURATION

The Boil Water Advisory will remain in effect until the water supplied by this water system no longer presents a risk to public health. You will be notified when the advisory has been rescinded. If you have any questions or concerns, please contact the Pembina Valley Water Cooperative at 204-324-1931 or the Regional Drinking Water Officer at 204-795-6908, or Health Links at 204-788-8200 (toll free at 1-888-315-9257) or the RM of Dufferin at 204-745-2301.
